ELVIRA IUROVA

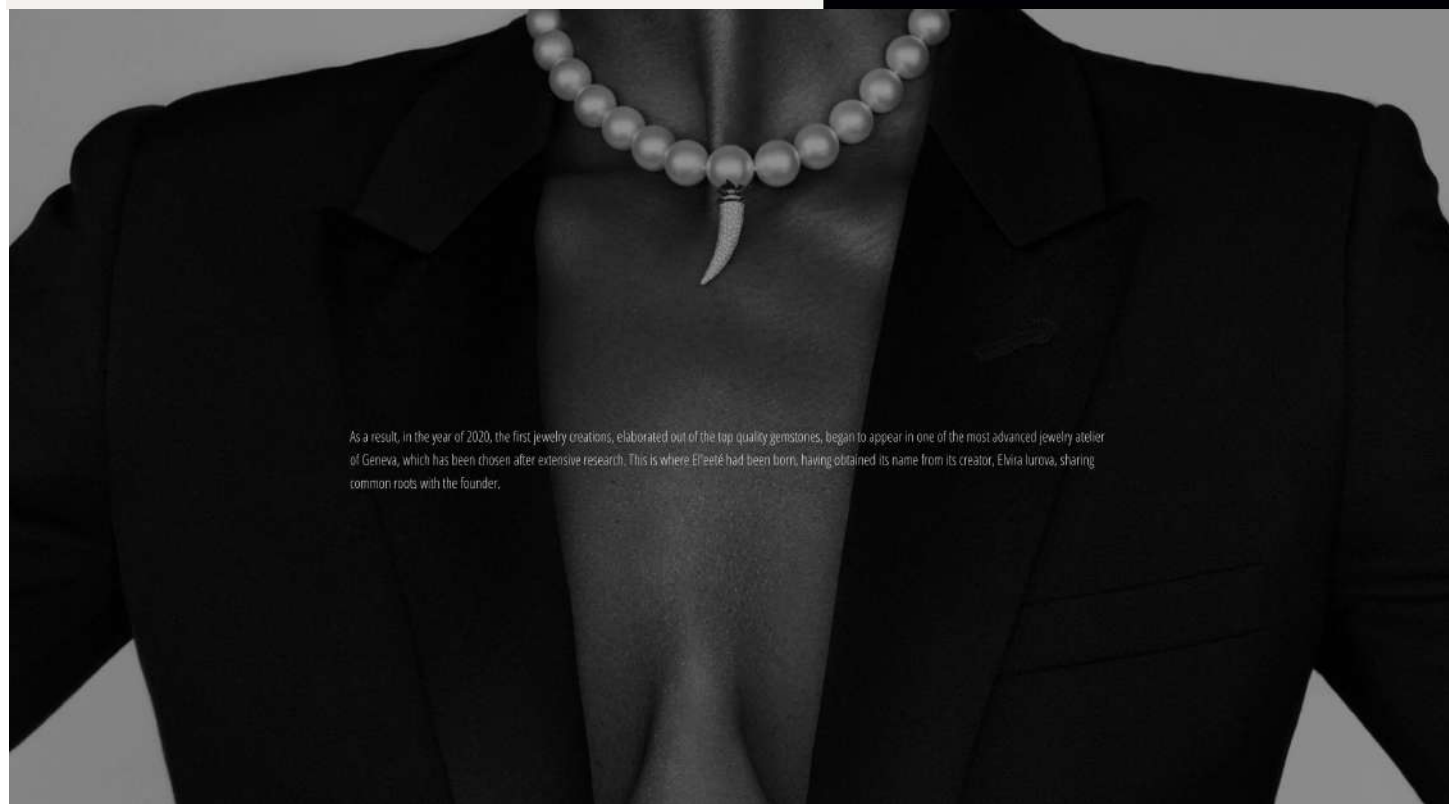

is the all-in-one beating heart of the brand - a designer, a founder and a creative director. She has always wanted to see the coherence between the ongoing happenings around us, to see the sources of those rivers of abundance, wherein one plunges headlong enjoying.

«I have never been able to write beautiful poetic texts, and I have always admired how proficiently some authors can describe and transmit their point. I have never been able to draw in such a way as to convey my thoughts and feelings to the canvas, but I could stare at the artist's painting for hours, reading their mood and drawing inspiration. I have always had subtle and profound vision and feeling of the great amount of processes taking place inside, outside and around me, luring me with its incredible energy and force.

My search led me to the immense and amazing discoveries that resulted in the objects of jewelry art, born from my visions and ideas about a true multi-faceted woman, which we all are with no exceptions... just if we, ourselves, would want to discern these sides!

Eventually, images of jewelry art began to come while dreaming, forcing me to wake up, grabbing a pencil half asleep to draw the sketches».

As a result, in the year of 2020, the first jewelry creations, elaborated out of the top quality gemstones, began to appear in one of the most advanced jewelry atelier of Geneva, which has been chosen after extensive research. This is where E'teé had been born, having obtained its name from its creator, Elvira Iurova, sharing common roots with the founder.

woman, who dares to wear a physical manifest of her inner strength.

BESPOKE EL'EETÉ JEWELLERY

is an incredible piece of Jewellery Art that will be created to portray the uniqueness of your soul and enhance your inner power. It is a jewellery piece that gives freedom to your deepest rivers of abundance, which waters will carefully and gently lead you to the most desired goals, open up new opportunities for you, and take you to a completely new world of wonders on this planet Earth.

MISSION

E'teé is a brand created by a woman for a woman. Through her creations the designer wants females to connect with their savage and visionary natures. She knows, all women are much like wild nature: full of strong life force, life-giving, generation raising, inventive, loyal, seeking. In fact, according to Elvira Iurova, the brand's main mission is the adjustment of classic jewelry to a modern woman - intelligent, sensitive, deep, powerful, independent, refined — the woman who truly manifests herself in this world.

The E'teé brand itself, defining its jewelry style, speaks of a mix of luxury, inner depth, sensuality, intelligence and innovation. E'teé promotes femininity and elegance as well as the perfect elaboration of the final product, attention to the details and bespoke approach to a customer.

E'teé Creative Director Elvira Iurova is immersed in her interior wild nature, which everyone might as well dare to identify in themselves, getting it out and knowing how to take advantage of it.

EARRINGS

Ef'et  - when the eccentricity, depth, inner strength of the creator do not shout, do not cause rejection, but are surprisingly combined with softness, sophistication and strict proportionality of lines.

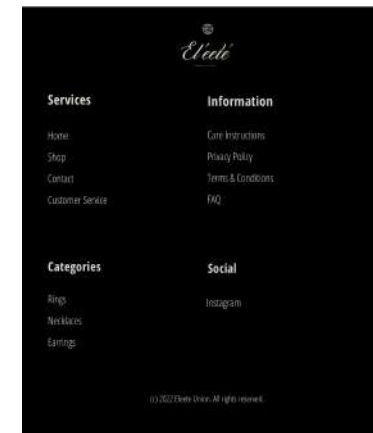

Delicate poetry and charming colorfulness, feminine softness and stunning sensuality are intertwined in Ef'et  jewelry.

All Ef'et  creations are distinguished by their exquisite style and absolute quality, which can be appreciated literally from the first glance.

Ef'et  captures natural beauty and generously shares its possible embodiments in its products, bestowing on every woman a sense of her true and unique attractiveness.

Ef'et  allows women to feel beautiful by empowering them with precious accessories, emphasizing their attractiveness, revealing depth and sensuality and defining a unique style.

Jewelry from Ef'et  is a real enchanting spectacle of emotions, but at the same time inexpressible softness, femininity and some kind of soul—caressing silence. The inner sense of style and restrained elegance of Ef'et  jewelry is not about fleeting fashion, but about the inner ability to see beauty and to actually be beauty itself.

VISION

All the collections are distinguished by a new attitude to jewelry design, therefore - an intellectual, complex accessory fits into both - a business or evening clothes, as well as casual everyday wardrobe, meanwhile the geometric shapes of the jewelry creations emphasize the rounded tenderness of gemstones.

Attention to each and every detail, appreciation for the frozen in a moment perfection of exquisite pearls, the ability to see beauty in everything - are the key principles of the E'teeté brand philosophy.

The pearls of E'teeté are out of competition. Only those that favorably differ in luster, shape, surface perfection, thickness of the mother-of-pearl layer, size and, of course, color undergo strict selection of the jewelry brand.

The process of creating each piece is long and complicated. Until now, Elvira Iurova draws each and every detail on paper with maximum specifications and accuracy, and presents the masterpiece of jewelry fantasy to the embodiment only after a positive assessment of the experienced craftsmen.

Each E'teeté creation is to be unraveled, every one of them contains hidden symbols. The basics of this symbolism are - deep sensuality, the oneness with nature, the natural origin, the wild instincts, untamed inner force and the personal experience of the craftsmen, presenting the masterpieces of jewelry fantasy to the embodiment.

E'teeté Creative Director Elvira Iurova is immersed in her interior wild nature, which everyone might as well dare to identify in themselves, getting it out and knowing how to take advantage of it.

URMANOVA IMAGERY

Website, Graphic Design, Al Dubai

WELCOME TO MY SPACE

Urmanova Imagery is the space in my heart and soul that materializes my vision and feeling of the world and people into the photographs. It's a hereditary journey that connects dots of my path where after 15 years in fashion I found myself becoming a portrait photographer.

I photograph what you are not how you look. That inner state you are at or those feelings and emotions you are experiencing during our Muse-Master "dialogue".

I create very personal stories, timeless portraits that are meaningful yet playful, liberated, experimental or reflective of the 'just being' state.

Anyone who is ready to self-explore and open up can become my heroes and heroines.

With my extensive fashion retail background I now know how to make business strategy and visual image speak one language.

I also understand how image is important for communicating yours or brand's values and aesthetic keeping authenticity.

"POWER OF SEEING"

My first Solo Exhibition "Power of Seeing" took place in iconic space of ME Dubai designed by Zaha Hadid from February 7th to April 15th, 2024.

Show featured nearly 100 of my works. Rational attempt to explain what i see in people, their profound beauty, their presence and celebration of diversity of feelings and emotions.

I do leave all social statuses, roles, judgements out of my lens and see into the essence. How can one 'see' into the essence? It is by giving that "feeling of being seen" when one desires to open up.

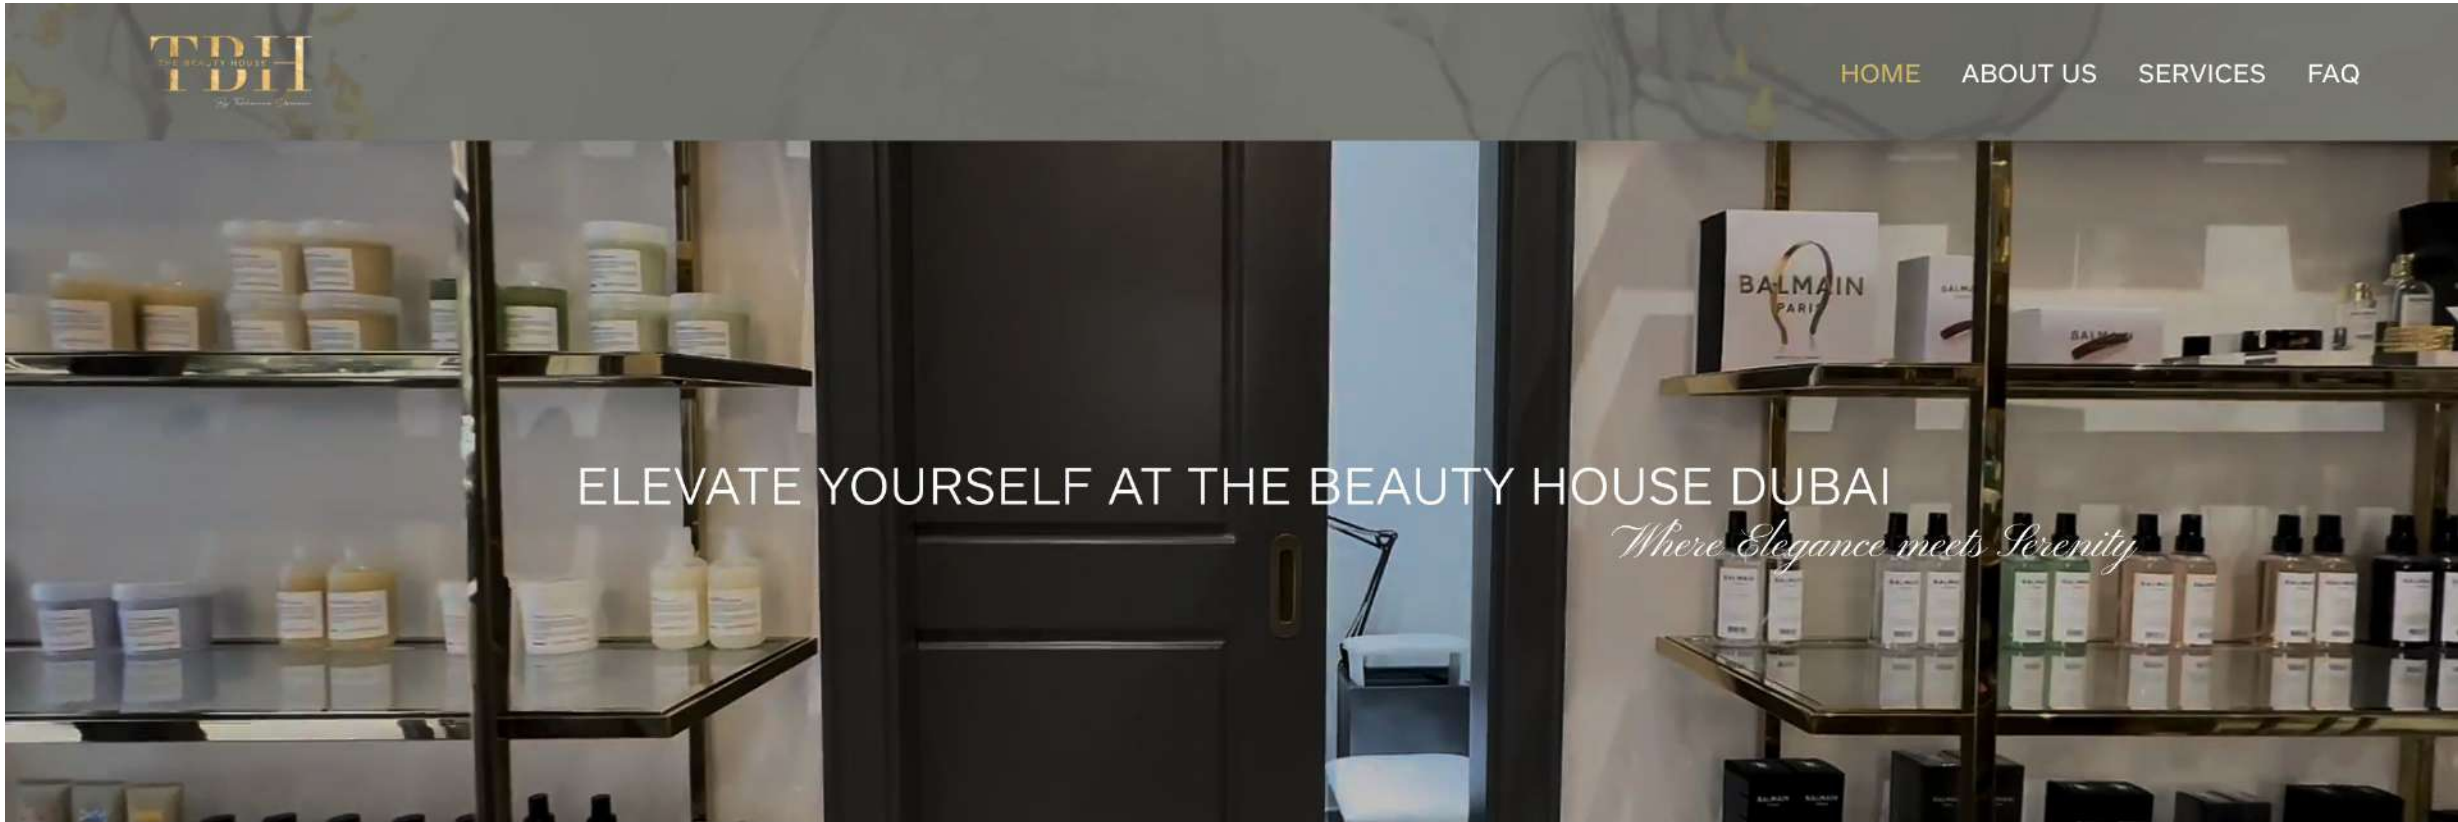

Show consisted of 4 points of contemplation. "Perpetual beauty" , "Architecture of a soul", "Intricate Act of being Art", "Life as is" united by one main philosophy of "Power of Seeing": seeing of what is far beyond your eyes. Love letter to the human soul that lives through its experience in a modern era of a big city staying true to perpetual values.

WHO IS VICTORIA JUNG?

I am a person with unique experience who combines rational and irrational approaches. Which gives a possibility to use not only analytical data, but also intuition, metaphorical thinking and collective intellectual thinking to make more comprehensive and thoughtful decisions.

Project Scope:

- Design and Development of a Landing Page for a Personal/Team Coach based in Frankfurt
- Responsive: Desktop, Mobile, Table
- Multilingual

HOW CAN I HELP YOU?

Through a synthesis of project-based approach and intuitive methods, I will help you solve business problems by focusing on your potential, working with goals, blocks and resistance to maximize results and unlock your unique growth formula.

[REQUEST A ZOOM CALL](#)

PROBLEM STATEMENT

Organizations that prioritize growing their business spend each year multi-million dollar budgets and the time of their highest paid employees on strategy and leadership team development sessions.

But how effective are such practices in the current realities, when decisions need to be made faster? And reliable and relevant data to rely on is becoming increasingly scarce?

SOLUTION

Real success and competitive advantage lies in the ability to find access to relevant information that will cover both the analysis of the current situation and the future forecasts. That is only possible using a combination of approaches: traditional analytics and working with the collective unconscious.

This request covers my know-how: strategic sessions incl. the method of Constellations. I share a detailed description and scientific evidence of the approach during the introductory call.

ABOUT ME

- At 23, the youngest Financial Manager responsible for all the corporate finances
- At 27, PM at the largest merger project for a million euros
- At 29: PM at the largest acquisition project for a company growing from 20 to 120 employees
- In 2019: organized the first private label conference for optical market leaders 'How to become a Lovemark' (loyalty in business through love) Which was the starting point for my method of combining rational and irrational approach in business.
- 2020 and 2022 - mom of two daughters and at the same time new education: adding "soft sciences" to my analytical tools.
- 3 years of consulting with astrology, constellations and hypnosis methods.
- 1 year of daily sessions. As a result: my own author's method of combining business and esoterica.
